

Known problems with VS2013 projects

id	001
type	linker error
date	10-06-2015
reported by	Andreas Seiderer
system	Microsoft Windows [Version 6.3.9600]
description	test project with vc120 as target doesn't find lib because it searches in vc100 directory
solution	remove reference to plugin

The screenshot shows the Microsoft Visual Studio IDE. The Solution Explorer on the left displays a project named 'python.v12' with a sub-project 'test'. The Properties window is open, showing the 'References' tab for the 'python' project. The 'References' list contains a single entry: 'python'. The 'Build Properties' tab is also visible, showing various build settings. At the bottom, the Error List shows a linker error: 'error LNK1104: cannot open file 'E:\SSL_vc12\bin\vc100\ssipythond.lib''. The error message is highlighted in red.
